How to use the granted scholarship

To use the granted scholarship, the student must study the first year in Vietnam and pass all first year's courses. It means that students can use the scholarship awarded from third semester.

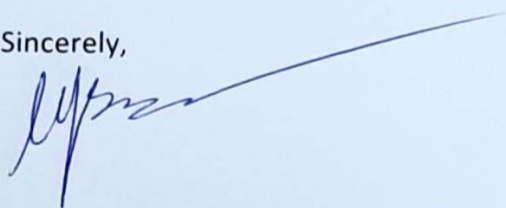

Students have to coordinate with the ATCM VN Program Coordinator at UCN which semester the scholarship can be used and where the students prefer to study (UAH or UCN at Aalborg).

For students who want to study the scholarship semester at UCN Aalborg campus, some conditions will be applied as follows:

- At least 6 months is needed before travelling to Denmark to complete related forms and apply for a visa. Therefore, for students who want to study in the Autumn Semester have to get approval from the ATCM VN Program Coordinator of UCN no later than 1 March. Also, for studying in the Spring Semester, students have to get approval no later than 1 September. In practice this means that students wanting to study the scholarship semester at UCN in Denmark, can make use of this opportunity from the 4th semester onwards.
- Students apply for a visa on their own to the Danish Embassy in Vietnam with the support of the International Department at UCN and UCN Global Office Vietnam. Students must bear the costs associated with the visa process. It should be noted that UCN does not guarantee that students will be issued visas. In case students fail to apply for a visa, students must take that semester in Vietnam.
- Students have to pay the tuition fee for the scholarship semester to UAH as normal. UCN through UCN Global Office Vietnam will refund the scholarship to students according to the bank account registered by the student one month after the scholarship semester started.

We wish you all success in higher education with your efforts.

Sincerely,

Tran Quang Sau, MsC.
Director of UCN Global Office Vietnam
